This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. THE FISCAL YEAR covered by this, the eighteenth, annual edition of "Trust Companies of the United States," has again witnessed a marked progressive tendency within the ranks of these institutions.

Not only has there been a handsome growth both individually and collectively, but the scope of usefulness of the Trust Companies is being constantly widened and presages an even more assured recognition than formerly of their value as an integral part of our financial system.

The figures on the following pages, when viewed comparatively, testify to the splendid position now occupied by Trust Companies and furnish eloquent proof that their broad service is being increasingly availed of by the multitude of individuals and corporations whose special needs they so admirably meet.

The total resources of the 2241 Trust Companies reporting reach this year the impressive total of $12,451,877,583.58, an increase of $1,301,431,496.05 over the figures of last year, and $6,123,423,555.24 greater than those of five years ago.

DIGEST OF STATE REGULATIONS

As Reported by Commissioners in the Different States

Note 1—If authorized by charter.

Note 2—Illinois corporations, organized for the purpose, and State Banks have power to accept and execute trusts, upon deposit with the State Auditor of security, for the performance of such trusts, varying in amounts from $50,000 to $500,000, depending upon the size of the city where the institution is located and the amount of business done. Corporations organized solely as Trust Companies have no banking powers. The Illinois Law does not require any specific reserve against bank deposits. The State Auditor has, however, visitorial powers over State Banks corresponding with those of the Comptroller of Currency over National Banks. His Department rules that Chicago Banks carry 25% against deposits and those outside of the City of Chicago carry 15%.

Note 3—If secured according to law.

Note 4—Company becoming a member of a Federal Reserve Bank subject to provisions of Federal Reserve Act relative to reserve in substitution of the requirements of the State law concerning reserve.

Note 5—In cities and towns of less than 5,000, a reserve of 20% is required.

Note 6—Trust Companies, organized as such in Kentucky, have very limited powers. They may, however, be combined with banks, and when so organized have the powers shown in Table.

Note 7—Trust Companies receiving deposits required to keep same reserve as State Banks.

Note 8—Trust Companies in Nebraska have been authorized to do a general Trust and Safe Deposit business. A portion of their assets must be deposited with the Auditor of Public Accounts.

Note 9—The New York State Law requires in the Borough of Manhattan a reserve of 15%, of which 10% must be in actual cash on hand. In Brooklyn, 13%, of which 8% must be in actual cash on hand. Other boroughs of Greater New York, 10%, with 4% cash on hand. Other first and second class cities in the State, 10%, with 4% cash on hand. Elsewhere in the State, 10%, with 3% cash on hand. The balance of such reserve must be kept in certain selected depositories, approved by the Superintendent of Banks. Any part of the reserves on hand in excess of 3% of deposits may be deposited, subject to call, with a Federal reserve bank in the district in which such trust company is located. Trust Companies, members of New York Clearing House, are required to carry 15% cash on hand and 10% cash in banks carrying 25% cash reserve in vaults.

Note 10—Corporations exercising trust powers required to deposit $100,000 in cash or bonds with State Treasurer. The Columbus Clearing House requires that all active members carry a reserve conforming to State and Federal requirements.

Note 10—Corporations exercising trust powers required to deposit $100,000 in cash or bonds with State Treasurer. The Columbus Clearing House requires that all active members carry a reserve conforming to State and Federal requirements.

Note 11—Not if doing a banking business.

Note 12—If incorporated under laws of 1913, 10% of savings deposits required.

Note 13—Title Companies doing a trust business may. Banks may not.

Note 14—Reserves vary according to the size of city and the department of business.

Note 15—This applies in cities over 50,000—10%, one-third of which must be in cash required in cities under 50,000.

Note 16—12% demand deposits, 5% total time and savings deposits; and in reserve or central reserve cities under Federal Reserve Act of December, 1913, 15% of demand deposits and 5% total of time and savings deposits.

Note 17—15% demand deposits, 7% time and savings deposits, required in cities under 50,000; and 25% of demand and 10% of time and savings deposits required in cities over 50,000.

Note 18—A company doing a guarantee business or title insurance business cannot engage in the banking business.

Note 19—For those Trust Companies and Banks that are designated reserve banks, the legal requirement is 20%.

Note 20—Trust Companies in Michigan are not permitted to do a banking business, although under the supervision of the State Banking Department. They are required to deposit with the State Treasurer approved securities to the amount of 50% of their capital stock (but in no case more than $200,000), as security for their depositors and creditors. A reserve of 20% of matured obligations is required, of which three-fourths may be kept in any bank or trust company approved by the Commissioner of the Banking Department.

Note 21—20%, of which 8% cash for Boston; 15%, of which 6% cash outside of Boston. A Trust Company is permitted to carry one-fifth of its reserve in bonds of the United States or Commonwealth of Massachusetts.

Note 22—Trust Companies may receive deposit of money from any bank, savings bank, trust company or from any public officer or board, subject to checks or from any person, corporation, or association upon certificate of deposit.

Note 23—In towns of less than 2,500 population, 15%; in cities of 2,500 population and over 20%; of which two-thirds must be with approved State Bank having $50,000, or upwards of capital.

Note 24—Savings Banking only by special provision with 15% cash reserve required, one-third of which shall be kept in actual cash and two-thirds may be kept with approved reserve agents. Power to guarantee bond issues can only be exercised by banking and trust companies.

Note 25—In Iowa the reserve requirement for sight deposits is 15% in towns of three thousand and under.

Note 26—In March, 1918, the Legislature passed a joint resolution requesting the Superintendent of Banks in Montana to allow State Banks to carry a reserve of 10%, and 15% during the term of the war. [Still in force.]

Note 27—Two-thirds of reserve may be on deposit; one-third may consist of U. S. or designated state bonds.

All offices adjoin those of the
United States Mortgage & Trust Company

THE UNITED STATES SAFE DEPOSIT COMPANY, affiliated with the United States Mortgage & Trust Company, maintains offices adjoining those of the latter at four strategic locations in Manhattan: 32 Liberty Street, Broadway at 73rd Street, Madison Avenue at 75th Street, and 125th Street at Eighth Avenue.

Safe Deposit Vaults and Boxes — Commodious, modern vaults, with individual safe deposit boxes of convenient sizes provide safety for Bonds, Stock Certificates, Mortgages and other securities, insurance policies, jewelry and personal effects. The Company's vaults are safeguarded by every up-to-date protective appliance and are under constant guard.

Storage Facilities — All offices are equipped for the storage of trunks, packing cases, boxes and bulky packages of various kinds, silverware and linen. The Main Office at 32 Liberty Street makes a specialty of the storage of silver bullion, against which negotiable receipts are issued.

Private Coupon Rooms — Private rooms are available to patrons for clipping coupons, examining papers, preparing income tax returns, etc. Ample accommodations may also be had for committee meetings and conferences.

Motor Delivery — A private motor car, with attendants in livery is maintained for the collection and delivery of articles in storage.
